

FINE CHEMICALS TRADING INGREDIENTS

Ingredient

Application

A

Arabic gum powder and spray-dried

emulsifier for coatings and printing inks

L-Aspartic

chemical synthesis

C

Copper carbonate tech. grade

wood preservative and fungicide

Copper hydroxyde tech. grade

fungicide in agriculture and chemical industry

Copper gluconate

low copper dosage in fertilizers

Cremortartar

metal colouring, textile printing and galvanic industry

Cupric chloride tech. grade

catalyst and reagent for Copper derivatives

Cuprous chloride tech. grade

catalyst, reagent for Copper derivatives, Copper for pigments, electroplating industry

Phthalocyanine

Cupric oxyde tech. grade

catalyst and reagent for Copper derivatives

Cuprous oxyde tech. grade

pigment red for paints

E

Ethyl benzoate

special solvent for catalyst

F

FARA-SIND

fatty alcohols and amines ethoxylated chemicals as anionic and nonionic surfactants, emulsifiers

G

Gallic acid

preservative

L-Glutamic acid

chemical synthesis

Glucono delta-lactone	additive for disinfectants
L-Glutamine	chemical synthesis
Glycine – Aminoacetic acid USP XXII	agriculture and chemical synthesis
Guar gum	linking agent and thickener for various applications

H

HPMC-Hydroxypropylmethylcellulose	thickening agent
-----------------------------------	------------------

I

Iodine crude	oxidizing agent, chemical synthesis
--------------	-------------------------------------

L

Lactic acid	various applications
-------------	----------------------

M

DL-Malic acid	building press retarder, chemical synthesis
L-Malic acid	building press retarder, chemical synthesis
Magnesium carbonate (heavy)	filler for paper, rubber, cleaning metals and tooth paste

P

Polyvinylpyrrolidone K 30 industry	textile, inks and coatings industry. Additive for cosmetic
Polyvinylpyrrolidone – Iodine	Iodine active ingredient for disinfectant
Polyvinylpolypyrrolidone	stabilizer
Potassium sorbate	preservative
L-Proline	chemical synthesis
Propyl gallate	antioxidant for fats

R

Resorcine tech. Grade additive for wood treatment

S

Saccharin sodium EP chemical synthesis

Sodium acetate anhydrous buffering agent for anydrous media

Sodium acetate trihydrate various applications

Sodium alginate textile fibers manufacture, pastes for dental applications

Sodium ascorbate preservative

Sodium benzoate FU preservative

Sodium erythorbate preservative, corrhosion inhibitor for metals

Sodium glicerophosphate additive for sprying fertilizers

Sorbic acid preservative

T

Tartaric acid chemical synthesis and building additive
